

COMING!

The Lethbridge Crusaders Instrumental quartette to the Salvation Army, Saturday and Sunday, September 6 and 7. Watch for full particulars in next week's issue.

Hon. J. L. Ilsley Recommends Restriction of Instalment Credit Sales

Increase in Credit Sales Builds Up Opposition to War Effort. Favors Increased Down Payment And Shorter Period In Which To Pay.

One of the main speakers addressing the Dominion Weekly Newspaper convention held at Quebec recently was the Hon. J. L. Ilsley, Minister of Finance in the Federal cabinet. Among various topics discussed by the Minister was that on credit and its reaction to Canada's war effort. Here is what he said on the matter:

The second objective I have in mind is the restriction of instalment credit sales, a problem which has been much in the public eye this week. For the past six or eight months we in the Department of Finance have been giving careful study to this problem and on several occasions have urged the desirability of the adoption of more conservative credit terms by the manufacturers, merchants and financial organizations operating in this field. Here again the public would, I am sure, respond if they clearly understood the governing considerations. In my opinion, these considerations are twofold—first, in a time of growing shortage of materials, plant facilities and labor power, any device which provides an undue incentive to the purchase of consumers durable goods sets up directly an abnormal

competition with the war effort and tends to retard that effort. In the second place unduly liberal credit terms encourage people of moderate means to take on commitments which they may not be able to meet when the present period of industrial activity is over. Consequently any such widespread mortgaging of the future will aggravate post-war difficulties whereas what we need is present deferment of purchasing power with a view to providing support to employment and industry in the Post-war period. Of course, I do not recommend complete elimination of instalment selling nor even punitive terms of credit which might work unfairly as between different income groups in the population. What I urge is that the business interests involved should exercise conservative rather than liberal credit terms increasing the required down payment and shortening the period over which payments may run and that the public should refrain from the temptation to mortgage their future earnings unduly. I frankly admit that direct control of the production of consumers durable goods will probably be necessary to secure the restriction that will be necessary, but voluntary reduction will probably always be a necessary supplement to such controls and in the early stages should probably be relied upon as far as possible.

Winner of Spikes Still Undetermined

Controversy As To Minimum Number Of Times a Player Should Have Batted

The ball season is over as far as Pucksters' interest in the Crows Nest Pass league is concerned, but one point that remains to be cleared up to the satisfaction of the players is "who won the spikes being donated by George Pattinson?"

Due to players being absent from a number of league games and others playing all games a discussion has taken place as to a fair means of determining the batting averages of all concerned. It will be noticed from the following averages that one player only batted four times while another batted 39 times. The question arises: "would it be fair to judge one player's average against the others in a case such as this?" That question will be decided next Sunday at a special meeting of the players. They are expected to make a ruling that a player must have batted a certain number of times before his batting average can be considered for the prize.

Following is the final averages during the league season after the spikes were offered for competition by Mr. Pattinson:

Name	A.B.	H.	W.
F. Slugg	27	9	2
L. Sanderson	39	10	4
W. Fraser	31	10	0
J. Eliek	16	2	0
A. Bell	39	13	0
W. Field	37	8	0
J. Joyce	39	10	0
M. Fleming	28	8	0
S. Ryppien	33	8	0
Jackie	11	7	0
J. Slugg	29	2	1
J. Seaman	4	2	1

Women Oppose Soap Operas

To Petition CBC To Give a Member of the Macleod-Lundbreck Rocky Mountain constituency conference of the W.L. have passed a resolution opposing "soap operas" on the radio. The resolution reads: "Whereas we deplore the sentiment of the serial soap programs given over the CBC network, we would respectfully request a better type of program be given to the public."

Members of the Macleod-Lundbreck Rocky Mountain constituency conference of the W.L. have passed a resolution opposing "soap operas" on the radio. The resolution reads: "Whereas we deplore the sentiment of the serial soap programs given over the CBC network, we would respectfully request a better type of program be given to the public."

QUEEN AT SERVICE WOMEN'S CLUB

Queen Elizabeth spent a happy hour at the King George and Queen Elizabeth Club for Service Women in London. The Queen, who is seen here chatting with Canadian nursing sisters, was delighted with the club rooms which she inspected.

No Paralysis Here Yet, Says Health Officer

Urges Residents to Take Many Sanitary Precautions To Curb It

No case of infantile paralysis has been reported in Coleman and district.

But with scores of cases on the prairies and with a case reported as near as Macleod every precaution should be taken, stated the local medical health officer.

"Unquestionably poliomyelitis is a tragedy to those directly affected," Dr. Rose said. "But the public would do well to bear in mind the fact that figures available for relatively large areas indicate that the number of persons attacked is, as a rule, actually much smaller than in epidemics of other diseases."

There is no way of determining at present what course or direction the outbreak of infantile paralysis will take, but the public should be reminded that nothing is to be gained by becoming alarmed at it.

It is believed that infantile paralysis may be an "intestinal disease," and if this is the case it would spread in a manner similar to that of typhoid fever. Proper sanitation is therefore stressed as a possible means of control.

Outbreaks of intestinal diseases occur most commonly during the months of August and September, so special preventive measures are needed at this time.

"Articles of food and drink should be protected from contamination and spoiling," the doctor warned. "Flies and mosquitoes should be prevented from gaining access to places of residence, and those that manage to get in should be promptly destroyed."

Yards should be kept clean, so flies will not be attracted to the vicinity.

Over-fatigue should be avoided. "Parents are reminded," the doctor stated, "to limit the amount of raw fruit which children are permitted to eat, thus preventing the occurrence of unnecessary gastric intestinal upset. Such disturbances may prepare the way for more serious complications."

These are the precautions. Parents should be sure that their physician is called at the first sign of an illness.

Dr. Rose stated "the number of deaths in even a large-scale epidemic of Polio is much smaller than from a similar epidemic of measles or whooping cough. Yet the general public look on these two latter diseases as 'children's diseases' which should be gotten over and the sooner the better."

Mr. and Mrs. Rudy Alexander were Calgary business visitors on Tuesday.

Bellevue Show Labor Day Attraction

Entries Have Begun To Roll In; Frank Turner Endeavoring To Have Local General Showwork Exhibited.

Labor Day, September 1, is the one day of the year when Bellevue celebrates on a grand scale. The Bellevue and District Horticultural & Industrial show is among the top leading shows in Southern Alberta and is well patronized by Pass citizens. This will be the 24th annual exhibition and it bids fair to outdo all previous years.

Secretary Charles Johnson stated on Monday that the entries were beginning to be received and that a large entry was expected.

He stated that Frank Turner, Coleman's instructor in general show work at the schools, was endeavoring to round up a number of articles done by students of the general showwork classes and if successful he would exhibit them alongside exhibits from the Bellevue school.

Last year Mrs. Lou Clary and Mrs. Alex. Easton won prizes in the quilt and fancy work classes and entries were expected from these ladies. Coleman florists are expected to enter exhibits, Mr. Johnson having sent an invitation to several to enter exhibits free of charge.

Membership in the Bellevue Horticultural society costs one dollar per year. Members exhibiting flowers, etc., are allowed two exhibits for 25c. Those winning prizes at the show have next year's membership fee deducted from their prize money.

President Wm. Kerr and Secretary Johnson extend a hearty welcome to Coleman citizens to attend the exhibition, held in the arena. Doors open at 1 p.m. and close at 7.

Due to the provincial health department's ban on children assembling in public places the sports have been cancelled this year.

SPECIAL DEMONSTRATION OF VOSS WASHER AT PATTINSON'S HARDWARE THIS AFTERNOON

A special representative of the J. H. Ashdown Hardware Co., was at Pattinson's store this afternoon at 2 o'clock demonstrating the new Voss electric washer. Many ladies were present to see the washer in action. Two exclusive features of this washer are "suds washing with floating agitation" and "Double Safety of Electric-Safe Wringing."

The Misses Margaret and Ethel Dunlop arrived home on Tuesday for a vacation spent at Vancouver.

Coleman Motorists Fail To Reduce Their Gasoline Consumption, Survey Shows

Only One Garage Reports Small Reduction; Sunday's Gasoline Business Now Done On Saturday; To Cut Deliveries of Gas And Oil to Retailers

Coleman motorists have paid little attention to the federal government's request to voluntarily cut their gas consumption so that Canada's war effort may not be crippled by a shortage of this precious fuel.

A survey by the Journal on Tuesday morning revealed that only one of the four major garages in town has noticed a decrease in gas sales and that by only a small percentage. Proprietors of the other garages state that business previously done on a Sunday is now squeezed into Saturday's business. It is noticed that on a Saturday evening cars are lined up at the garages waiting to "fill up."

Evidently this situation exists in

a great degree throughout the Dominion. To force a reduction in gasoline consumption a government order was issued on Monday whereby deliveries to retailers will be cut.

In analyzing the order, however, it was revealed that it really amounts to little, if anything. The summer peak in sales has been reached and naturally the fall sale is not going to be as heavy. Therefore the order to cut gasoline delivery by 20 or 25% will work no hardship on retailers or motorists.

During the week of August 25 to 31 retailers will receive only 20% of total July sales, and during September and October they will receive only 75% of July sales.

So little tourist traffic is routed through the Crows' Nest Pass owing to the roads that gas consumption from this source is slight, stated the garage owners.

Nez-Perce Creek Water Sample Contaminated

A few weeks ago Councillors Abousay and Balloch, accompanied by Constable Wm. Antle, set out one Sunday to try and find pure drinking water which could be diverted into the town's water system.

They travelled two miles past the McGillivray prospect to the upper reaches of Nez-Perce creek where there was no human habitation. The water looked clear and tasted pure. They took a sample and sent it to the provincial laboratory for analysis. Result: positive contamination.

A special meeting was to be called to study the water question.

Kimberley Breaks Even With Michel In Ball Series

Michel Wins Opener 6-3 And Drops Evening Contest 9-1.

Michel Buffaloes and Kimberley Seniors split the opening two-game series to decide the champion of the Crows Nest baseball league at Kimberley on Sunday.

Michel, behind the brilliant pitching of Tommy Krall, won a 6-3 decision in the first game. They led till the eighth inning when Kimberley tied up the game. In the tenth Buffaloes went wild to shell Kimberley into submission.

Kimberley won the night-cap by sending Whaley Krall to the showers in the fifth. Johnny Krall suffered it out for the remaining two innings for the Buffaloes. Final score, Kimberley 9, Michel 1.

Elks Present Mr. And Mrs. H. Claes With Silver Tea Set

Thursday evening Coleman Elks and their wives gathered in the I. O. O. F. hall where whist was enjoyed. Prize winners were Mrs. Steve Penny, Mrs. H. Claxton, Mrs. A. Webster and Doug. Hartley.

Following whist, F. R. R. Wilfrid Dutil called Mr. and Mrs. Henry Claes, newly weds, to the middle of the floor where, on behalf of the lodge, he presented them with a handsome silver tea set. Mr. and Mrs. Claes thanked the Elks for their present.

The ladies provided the refreshments which were thoroughly enjoyed by all present.

PUCKSTERS TO COMPETE AT FERNIE SPORTS

Angelo's Pucksters will travel to Fernie on Sunday to take part in the Fernie Labor Day sports. They will be shooting for the \$150.00 first prize offered in the baseball tournament. Lacking a pitcher for the competition he is negotiating for the services of Melbourn, of Picture Butte. Time of the game was not known on Wednesday afternoon.

Wired Cages Now Ready to Receive Old Aluminum

Located at Six Depots Throughout Town; Campaign Under Supervision of Red Cross

Failure to have the wired cages ready last week caused delay in the opening of the local campaign to gather old aluminum which will aid in Canada's war effort. The campaign is being supervised by the Red Cross.

President W. Dutil has promised to have the cages at the depots located at Bobbitt's Grocery, Toppano & DeCocco's store, Tennis Court corner, Jackson's Grocery on Fifth Street, Coleman Hardware and Ferby's store.

Suggested articles desired include leaky pots and pans, utensils burned only in one spot, old shoe trees, shakers, golf clubs, broken parts of washing machines and sweepers.

Have the children take your aluminum contribution to the nearest depot and so help Canada's war effort. Proceeds for the sale of the aluminum will go to the Red Cross.

Nine Men Made Application For Enlistment in R.C.A.F.

Flt.-Officer Reid, of Calgary, visited Coleman on Wednesday to line up recruits for the R.C.A.F. 9 men made application. 6 from Coleman, 2 from Blairmore and 1 from Bellevue.

2 men asked to be placed with the air crew, 2 asked for trade school, 3 for standard general duties, and 2 asked for commissions.

The applicants will be notified from Calgary as to their acceptance into the R.C.A.F.

Close School To Sept. 15

A despatch from Edmonton on Tuesday, stated no change in the order banning public assembly of children 17 years and under, will be made before September 15th.

This will mean public schools will not open before that date and it is expected that it will prevent the opening of high schools. Majority of children attending high school are 16 and 17 years of age.

The provincial health board will meet again before September 15th and consider at that time whether a further extension of the ban is necessary.

Picobac

GROWN IN SUNNY, SOUTHERN ONTARIO

An Important Role

Grubbing around in an attic or basement amid the dust and dirt to ferret out old garments which can be rehabilitated, ancient furniture and articles of all sorts which can be patched and made to look like new for re-sale, or scraps of metal and wiring which may be turned back to industry for reconversion into valuable materials may not be spectacular, but it will hasten the day when the armed forces of paganism will be overwhelmed and will actually play an important role in winning the war.

It may not seem very heroic to turn over that junk pile in the farm yard to sort out scrap iron and metallic waste, to save bones and rags and waste, yet men and women and even children who are doing these very things are performing a very real and patriotic service for their country. They are doing something that is vital and essential for the winning of the war. They are backing the more spectacular work of the fighting forces in the field and of the men and women who are turning out the finished products of warfare in factory and workshop. They are providing some of the materials needed to manufacture bombs and ships and planes and many of the commodities they resuscitate and restore to industrial use helps to conserve materials which are difficult to obtain or of which there is an acute shortage.

No, the salvage campaign which is now being prosecuted throughout the length and breadth of the land is not spectacular but it is highly important, and as the war lengthens out into the months and the years, its importance will become increasingly apparent. Hence, the necessity for continued effort. Hence the necessity for conserving for use, many articles and much material which in times of peace have been regarded as junk and waste.

Unsung and Unrewarded

There are many unrecognized and unsung heroes and heroines of the home-front national salvage campaign. The story of one of them, Mrs. Percy Gilbert of Moncton, New Brunswick, is worth repeating as an inspiration to all Canadians who have not yet appreciated what salvage can mean to the war effort, or who have been too apathetic to the call to salvage for victory.

To quote a release from the National Salvage Office: "Even before Canada's national salvage campaign got under way, Mrs. Gilbert realized the value of salvage. She knew that a ton of scrap metal would make a lot of bullets and bombs. She knew that a ton of waste paper was potential raw material for war industry. She knew the processing steps that were saved when rags were turned back to industry."

"Mrs. Gilbert was fired by enthusiasm, but it was an enthusiasm still lacking among Moncton citizens. Interest was low. Scrupulous was high. So Mrs. Gilbert set out to do the job alone. She managed to get an old garage from the city fathers for a salvage headquarters. She canvassed homes for old clothing, newspapers, metal and utensils, lead wrappings—anything useful to war industries, anything that had resale value. She sorted and piled and stored all contributions she managed to get to the old garage. She filled up the headquarters and tried to look for additional supplies."

Eventually she progressed so far in her work, despite difficulties and handicaps, that she over-burdened herself and appealed to the Moncton service clubs to come to her assistance to move salvage items which were beyond her limited physical powers. The former sceptics were amazed at what one small, but stout-hearted woman had done. The rallying call went out to an ashamed but pleased citizenry. And now Moncton is right in the van of the salvage drive in New Brunswick."

The Impress Of Thrift

While furtherance of the war effort was the main, in fact, the sole objective of the national salvage campaign, its benefits are going to last after the war is over. Already the campaign has resulted in the establishment of new industries devoted to reconditioning for sale to individuals for re-use articles which have been discovered in the hunt for salvage and which are of greater value than if turned back to industry as secondary material.

As a result, shops, whose job it is to select, repair and display things like clothing, costume jewellery, bric-a-bac are springing up all over the Dominion in the wake of the national salvage campaign. These shops raise more money for war purposes from selling specific pieces of salvage than if those articles were reconverted as secondary materials. The articles are retained in service and ultimately will become salvage and command another price on their way back to industry. Thus, an industry which was in existence to a very limited extent before the salvage campaign got under way is, as a result of it, being extended to a very substantial degree and this industry will continue in operation as a commercial venture after the war, by which time people will have become thoroughly accustomed to turning in old or damaged articles.

Thus, thrift, an old fashioned virtue which had become outmoded will again become popular and will serve a valuable purpose in the post-war adjustment and at a time when it will be needed.

Aluminum Rivets

Dry Ice Keeps Them Soft And Warmth Hardens Them

Unlike ice cream, aluminum rivets, used in constructing airplanes, stay soft and in good driving condition when kept very cold. As soon as they are completed these rivets are rushed to a room refrigerated with "dryice" (solid carbon dioxide). When the rivets are in place and warm they are hard.

Even if Germany were to defeat Russia, it would be found difficult to occupy all of the country, containing one-seventh of the land surface of the planet.

A fur can be identified by an expert by examining the scales on a single hair under a microscope.

FEMALE PAIN

Women who suffer painful, irregular periods with nervous, moody spells due to functional causes should find Lydia E. Pinkham's Vegetable Compound most efficacious to relieve such distress. Pinkham's Compound is made especially to help weak, tired women to go smiling thru difficult days. Over 1,000,000 women have reported amazing benefits. **WELL, WORTH TRYING!**

Patience Is Required

Getting Away From Lisbon To America Is Hard Task

A small, shy man leaned confidentially across the desk at the United States Consulate at Lisbon and asked: "Please, sir, is there any possibility that I could get entrance into your wonderful country?" The Attache, pressed by thousands of such pleas and haggard with sleepless nights, replied roughly: "Impossible now. Come back in ten years." The little refugee moved toward the door, stopped turned and asked with a wistful smile: "Morning or afternoon?" — London Sunday Sketch.

Russian Girls Build Ships

Russian women and girls are building and repairing ships, having learned in a few weeks work which everyone had thought could be done only by men, an official of the Soviet shipbuilding industry said in a broadcast of the Moscow radio heard in London.

The Canadian gold dollar contains 23.22 grains of gold.

Ontario's 1939 production of silver amounted to 629,801 ounces.

No Friends Left

Rudolf Hess Was Last And Now Hitler Is Alone

In this article the London Evening Standard tells how de Fuehrer has murdered friendship:

There is an old German song of the last war. It goes, "I had a comrade, a better never was." Adolf Hitler and Rudolf Hess must have sung it together a thousand times. For their friendship began in the trenches, and from that day they shared together every circumstance in the rise of the Nazi party, every defeat and every victory. "I had a comrade" was the favorite song for celebrations.

Not so many others joined in these carousals with the same generous intimacy. Perhaps only half a dozen. Captain Roehm was a member of the circle. He had found Hitler in the gutter and gave him his first chance. He worshipped the Fuehrer; even after they had quarrelled, his allegiance was not broken. In 1930 he was acting as military adviser in Bolivia. A message came from Hitler inviting him to return to Germany and take charge of the storm troopers. Within 24 hours he was on his way. He did the job of a street army of 600,000 men. He lifted the Fuehrer to absolute power—and was struck down dead in a Munich prison yard for his pains.

Karl Ernst was another comrade. He was young, enthusiastic, doglike in his faith. He did not lose it even in the hour of his death. He was still shouting "Heil Hitler," when they shot him. For he truly believed that only rebels against the Fuehrer would dare or desire to touch a hair of his head.

One by one they went. Only Rudolf Hess was left. The rest were known for what they were, ambitious, self-seeking men who would stand by their Fuehrer, not so much through personal affection, but just so long as it served their interest. Who could make a friend of Goebbels? He was too useful to lose, but had he not once proposed that Hitler should be expelled from the party? Goering must be watched, too. The rumor always was that he had a fancy for the crown himself. Party Comrade Hess was the last and the best.

He is gone now. The Fuehrer has garnered victories and vast conquests. He can have all the pomp and parades that he wants. He is cheered by vast multitudes, but he is still alone. Friendship has been murdered.

To Join British Forces

Trek Of Norwegian Youths Predicted By Viking Leaders

A steady trek of thousands of Norwegians and United States youths of Norse descent into Canada, rallying to the side of Britain's fighting forces, is predicted by a Norwegian military mission now in Halifax.

En route from Washington to central Canada where they hope to establish army training centres, the Viking leaders look upon the United States as "a great reservoir" for the forces training in Canada.

In addition, they said there are hundreds of highly trained and daring men, escaped from Norway, who would join the centres here. One member, a captain who would not disclose his name for fear of reprisals against his family in Norway, said nearly all the officers of the Norwegian air force had escaped to continue the fight against Nazism.

Depends On Intent

Whether Certain Words Used Could Be Classed As Profane

H. V. O'Brien, in the Chicago Daily News, says: What makes language "bad" is its intent. I think, for example, of the clergyman I once knew who, when he missed a shot on the golf course, was wont to exclaim: "Oh pumphandles!"

Now as an epithet, "pumphandles" is certainly innocuous enough, but when considered in the light of the circumstances, it becomes a rich and fruity oath. There was nothing about "pumphandles" to offend the most sensitive; but in Heaven, where the score is accurately kept, that clergyman got a black mark chalked up against him. As Heaven heard the word, it was blacker profane—as black as any ever uttered by an unregenerate who has just missed a two-foot putt.

Just A Reminder

Tea rooms in France have been ordered by Vichy to remove sandwiches and other tidbits from their display windows. Police officials explained such displays make people hungry.

A hippopotamus is capable of a four-foot yawn.

Was Almost Unsinkable

Bismarck Came Very Close To Naval Architects' Dream

It has sometimes been said that the dream of a naval architect, or any marine architect for that matter, is to devise an unsinkable ship. A warship, of course, has to run the risk of a heavy pounding from shells and torpedoes as well as the ordinary risks of the sea. German naval designers are believed to have felt they had produced the unsinkable ship when they drew up plans for the Bismarck, and it was in the belief that the Bismarck could not be sunk by anything that might be fired at her that the German Admiralty sent her out into the Atlantic to do her worst.

According to German announcements she was of 35,000 tons, and it suited their purposes to make that known. Naval men believe she was nearer 50,000 tons with heavy armor. Putting all the evidence and data together, they are of opinion to-day that the supposed unsinkability of the Bismarck was due to the building-in of about 135 watertight compartments all over the hull. No such ship had ever been designed before, the biggest British and American battleships only having about 25. British seamen report that the big ship took terrific punishment from the air and from destroyers and cruisers before her amazing defences were overcome. If the George V, one of Britain's biggest ships, were attacked, it is estimated that she could be sunk if hit by eight or nine torpedoes.

Judged by these standards the most powerful warships in the British and American navies would be obsolete and no match for ships of the Bismarck type. It was fortunate that an aerial torpedo hit the Bismarck and disabled her steering gear. That, apparently, was her "Achilles heel."

Fortunately, too, Germany has only one other ship of the Bismarck type, the Tirpitz. If the Tirpitz ever emerges into the sea, as no doubt she will be made to do one day, the concentrated might of the Royal Navy will be needed to sink her.—St. Thomas Times-Journal.

SELECTED RECIPES

SOUR CREAM MUFFINS

1 cup flour
1 teaspoon soda
1 teaspoon salt
1 cup sour cream
½ cup molasses
2 tablespoons water
1 egg beaten
2 cups all-bran
Sift together flour, soda and salt. Combine cream, molasses, water and egg. Stir into dry ingredients and add all-bran. Fill well greased muffin pans two-thirds full and bake in moderate oven (350 degrees F.) for 20 to 25 minutes.
Yield: 15 muffins (2½ inches in diameter).

BRIAN SPICE MUFFINS

2 cups all-bran
½ cup light molasses
½ cups milk
1 cup sour cream
1 egg
1 cup flour
1½ teaspoons salt
1½ teaspoons cinnamon
¾ cup teaspoon ginger
15 thin slices raw apple or other fruit

Cinnamon and sugar mixture. Add all-bran to molasses and milk and allow to soak for 15 minutes. Beat egg and add to first mixture. Stir flour, salt, soda and spices together and combine with all-bran mixture. Fill greased muffin pans two-thirds full. Dip apple slices in cinnamon-sugar mixture and place on top. Bake in moderately hot oven (400 degrees F.) about 20 minutes.
Yield: 15 muffins (2½ inches in diameter).

Useful Reminders

Will Be Helpful If You Have A Pet Cat

Our Dumb Animals gives a few pointers to remember about your cat. Don't fail to keep fresh water for your cat at all times; milk is not a substitute for water. Don't forget that cats are very easily poisoned by antiseptics, soaps or medicines that are harmless to human beings or dogs. Tar, soaps containing carbolic acid, gasoline, turpentine or any powders containing these things may be fatal to a cat.

Enlightening Answer

"Is it very far to the next village?" a man who was walking in the country asked a roadmender. "Well, 'twas as far as all that," was the reply. "It seems further 'n it is, but it ain't."

"It appears they are short of coffee in England," said the German school teacher.

"What is coffee?" asked a pupil.

Santa Claus is known as Father Frost in Russia.

DURHAM CORN STARCH

Happens Every August

Shower Of Perseid Meteors First Recorded In 830 A.D.

The annual August meteor shower, the Tears of St. Lawrence or Perseid meteors, is over once more.

These are the meteors which never have failed to appear for 1,110 years straight. They probably were visible in mid-summer long before that but were recorded first in scientific records in 830 A.D.

Before midnight, you have to look to the northeast to see them; after midnight, right overhead. They fall at a rate of about 30 an hour.

They are shaped like tear drops, which is the reason the Irish long ago named them after St. Lawrence's Tears.

They are grains of dust but travelling at about 40 miles a second they flash brilliantly as they consume in the friction of the upper air. They burn at about 50 miles altitude.

These bits of dust circle the sun in an ellipse so vast that the meteors take 108 years for a single circuit. They are supposed to be a continuous stream of meteor dust whose width is estimated variously from 3,000,000 to 15,000,000 miles.

The astronomical guess is that they are what is left of some ancient comet which disintegrated and during almost countless years spread its dust in a continuous stream around the sun.

Could Intercept Pigeons

American Curator Thinks German Officers May Be Using Falcons

George C. Goodwin, associate curator of mammalogy at the American Museum of Natural History and an expert falconer, said it is probable the United States army can use the deadly hawk to disrupt enemy communications maintained by carrier pigeon.

In fact, he said he wondered if the German army were not using falcons now. Goering is an expert falconer, and Goodwin displayed a magazine published in Germany in 1938 which pictured German officers carrying falcons.

A falconer since his boyhood in England and the owner of two birds, Goodwin said "there is no doubt that before modern invention made possible radio and field telephones, pigeons were used to a much greater extent than to now and that falcons were used to intercept them."

Work By Moonlight

"Moonlight gangs" to salvage girders from bombed buildings will be at work soon in London as part of the ministry of supply plans to intensify the scrap metal drive. Labor, transport and machinery will be recruited in an effort to salvage every usable piece of scrap metal before the fall.

Britain Wants Eggs

Britain requires much larger supplies of Canadian eggs in 1941-42. Two eggs more per month from every hen should be the objective of every Canadian egg producer.

A pound of white bread and butter will affect the waistline more noticeably than four pounds of potatoes, according to dietitians.

New Powerful Explosive

According To Scientists It Has Terrific Destroying Power

John J. O'Neill, president of the National Association of Science Writers, charged that the United States government had "clepped a censorship" on laboratories developing an element which if contained in a 10-pound bomb "would blast a hole 25 miles in diameter and more than a mile deep, and would wreck every structure within 100 miles."

The science editor of the New York Herald-Tribune asserted in an address at the Houston Valley conference that the administration "is staging a totalitarian revolution against the American people."

He said scientists recently had discovered the method of releasing energy from the uranium atom, and after attributing terrific destructive power to a 10-pound missile of uranium 235, asked:

"Can we trust our politicians and war makers with a weapon like that?"

The answer is, no. Nevertheless our politicians have taken over control of scientists who have been working on the application and control of this discovery and are driving them to develop it for war uses.

"They have clapped a censorship in the scientific laboratories where this work is being done and no scientist dares to discuss what he is doing."

Wrote Her Own Speech

Queen Elizabeth Knew What Message To Give American Women

Queen Elizabeth's message to American women was so happily phrased that it could not fail to stir an emotional response in all who heard it. As became an heiress of Scottish tradition she did not fail to make an appropriate reference to Holy Writ. The parable of the Good Samaritan admirably served her purpose. "It gives us strength," she said to the women of America, "to know that you have not been content to pass us by on the other side. To be in the time of our tribulation, you have surely shown that compassion which has been for two thousand years the mark of the good neighbor." She looked forward to a day when the women of both lands would go forward, hand in hand, to a better world for their children.

It is said that the Queen wrote her own speech without consulting anybody except her two secretaries. This was just as well. This was women's business; it required no clumsy hand from the cabinet to carry it forward. Her Majesty evidently needs no politician to tell her what, in such matters, is diplomatic. Her brief address was as tactful as it was gracious.—New York Sun.

A Real Worry

"T'll bet you think twice before leaving that wife of yours alone in the evenings."

"T'll say! First I have to think up an excuse for going out, and then a reason why she can't come with me."

It's a poor brand of religion that makes a man pray for his neighbors one day in the week and try to cheat them the other six days.

Guerrilla Armies Are Now Operating In Many Occupied Areas

London. — An intrepid guerrilla army, whose members know that capture means death, is operating with increasing effectiveness throughout mountainous Yugoslavia and Greece and the entire interior of Crete is held by Greek and Cretan guerrillas and a lost battalion of British, Australian and New Zealand troops, according to reports reaching London.

These guerrillas, made desperate by knowing they are outlaws under the rules of war, are constantly raiding German communications, cutting railroads, ambushing small bodies of marching troops and truck columns, sniping at sentries, raiding small garrisons.

Along with reports of their activities come increasing evidences of disaffection in other German-occupied and German-occupied countries. It is asserted that tens of thousands of guerrillas are active in Poland. Sabotage is increasing in Czechoslovakia.

In Norway, Holland and Belgium the Nazis are meeting with new troubles every day, in addition to their being boycotted by the people at large.

Most amazing of the reports, however, was that guerrilla fighting continued in Crete. Maj. Gen. Sir Iven Mackay of the Australian Imperial Force, returning to Australia from the Near East, said that many Australians held out in Crete.

Investigation of the statement brought reports from Cairo that about 1,000 British, Australian and New Zealand troops, led by a British officer, left behind when the Germans captured the island, had formed themselves into a fighting force and were operating in the hills.

It was said that the Imperials had dyed their hair and beards so as to be indistinguishable from the Cretan peasants and shepherds, and had joined with Cretan and Greek soldiers and civilians to fight the Germans.

The Imperial and other Allied guerrillas, live in caves in the inaccessible hills. Each night they descend, guided by mountaineers, to harass the Germans in every way, ambushing, sniping, stealing supplies, sabotaging. It is reported that Greek fishing ships and even small British craft drop arms and ammunition in inlets along the coast to them.

A Slight Reduction

Germany Grants France Small Cut In Occupation Costs

Berlin. — Germany has granted France a reduction of her occupation costs from 400,000,000 francs a day to 300,000,000 it was announced.

The commentary Dienst Aus Deutschland observed that the step would "noticeably ease France's financial burden."

(The franc currently is worth about two cents.)

Using Old Prison

Montreal.—A provincial prison at Hull, Que., unused since its construction several years ago, will be used by the Dominion government for the internment of Communists it was announced here by Public Works Minister Bouchard.

Arrival Of More Nazi Troops In Bulgaria Causes Ankara Worry

Ankara, Turkey. — Authentic information that fresh German troops and air force units have arrived in Bulgaria caused sudden anxiety here over the possibility that Germany intended to demand facilities for passage of troops across Turkey and was prepared to move them by force if necessary.

News of the troop arrivals came simultaneously with reports of intensified Italian activity in Thrace, bordering on Turkey, and the Aegean islands adjacent to the Turkish coast.

Military experts said that after autumn rains bogged the fighting fields in Russia about two months of fighting weather would remain in Bulgaria and Turkey and hence Adolf Hitler might be tempted to try a diversion on a new front.

A second development was the increasing explosiveness of the situation in Iran and a third was the un-

Experts From Britain

Are Coming To Canada To Help In Shipbuilding Program

London.—British shipbuilding experts will soon be in Canada to assist in the big program of constructing destroyers in Canadian yards, Canada's navy minister, Angus L. Macdonald, announced here.

The destroyers, which will be built for the Canadian navy as part of its big expansion program, will be of the Tribal class. They displace 1,870 tons and carry eight 4.7-inch guns and four 21-inch torpedo tubes. The pre-war cost averaged \$2,000,000 in British shipyards.

The first of the new destroyers will be built on Canada's eastern coast.

Additional orders for corvettes will be placed in Canada, Mr. Macdonald also announced, where the yards, both in the Great Lakes and on the water, have almost completed existing orders.

The Canadian navy already has 40 corvettes in commission and in addition to these, Canadian shipyards have built an undisclosed number for the British navy.

The new orders will include some of a type too large to pass through the St. Lawrence river canals and will be built in yards having deep-water access to the sea. The smaller type will continue to be built at inland waters.

The minister said most of the material needed for the destroyer program was already under order. He believed eight or 12 British shipbuilding experts, to act as superintendents and foremen, would be enough to get things started.

Mr. Macdonald expressed admiration for the co-operation he has received from the admiralty in connection with the Canadian shipbuilding program and particularly, the destroyer program.

Since he arrived in Britain several weeks ago, the minister has visited many centres where Canadians were in training for the navy, army and air force. He found conditions for training satisfactory and the men in excellent spirits.

Not Disclosing Date

Conference In Moscow Will Likely Be Held Next Month

Washington.—The Moscow conference of British, American and Russian experts to make long-range plans for "a complete victory over Nazi Germany" will be held early in September, diplomatic sources said. The conference was proposed by President Roosevelt and Prime Minister Churchill.

These sources indicated the date of the conference was being set but is being kept a secret, as are the travel plans of the British and American representatives.

Docked For Repairs

Norfolk, Va.—The former luxury liner Empress of Russia, several times reported to have been sunk by German submarines, arrived at Hampton Roads and docked at Newport News for repairs. The steamer, a sister ship of the liner Empress of Asia, is of 16,810 gross tons.

Canada's Third Division

Gen. McNaughton Inspects Every Unit And Is Well Satisfied
Somewhere in Britain.—Lt.-Gen. A. G. L. McNaughton, commander of the Canadian corps, paid his first visit to the third division and, after inspecting detachments from almost every unit, declared "the standard of manhood and manliness" of the recent additions to Canada's overseas army "does credit to Canada."

Accompanied by Maj.-Gen. C. B. Price, commander of the third division, the corps commander visited two infantry brigades in the morning and saw regiments from the marines, Quebec and Ontario in various drill classes. He spent the afternoon with signalers, artillery regiments, maritime ambulance units and army service units. After inspection the corps commander and Gen. Price attended a reception given to senior officers of the division by Maj.-Gen. Victor Odium and officers of the second division.

The purpose of the inspection, Gen. McNaughton said, was to satisfy himself the basic training which was planned for the division in Canada had been worked out.

"I am very happy about everything I have seen," he added. "There is a very high standard of basic training and the men are most thoroughly in every respect."

The inspection of the third division coincided with the announcement of the arrival of a shipload of ancillary troops to reinforce the Canadian corps. The men arrived at an undisclosed port where Angus L. Macdonald, Canadian navy minister, greeted them. The contingent included ordnance, army service and ambulance units and the first Canadians trained for heavy anti-aircraft duties. The voyage was described as uneventful.

Reaction Was Favorable

Lord Halifax Tells About Effect Of Conference On U.S. Public

Montreal.—Lord Halifax, British ambassador to the United States, here for a short visit, told reporters the reaction in the United States to the momentous Churchill-Roosevelt meeting had been "generally favorable."

Lord Halifax, who had arrived from Washington in time to have lunch with Air Chief Marshal Sir Frederick Bowhill, head of the R.A.F. ferry bomber command lounged in a chair, one long leg slung over an arm, and talked informally with newsmen.

Speaking on the effects of the conference on United States public opinion, he said: "Naturally there was some criticism from the expected quarters but generally press and public accepted the object and results of the conference with great appreciation."

Force Is Growing

Winnipeg.—The Free French force have more than 100,000 officers and men, including 45,000 soldiers, 1,000 pilots and 18,000 sailors, Dr. J. B. Thonon, executive member of the Free France Manitoba branch, declared in a statement issued recently.

Shipment Cancelled

Large quantities of Egyptian cotton, scheduled for shipment to Japan, will not be sent, an official announcement said following upon cancellation of all navicerts from Egypt to Japan.

MAJOR-GEN. C. B. PRICE

Under the command of Major-Gen. Price, a section of the 3rd Canadian Division arrived safely in Britain after a speedy Atlantic crossing. It will join the Canadian Corps, now one of the most powerful military formations in Britain.

Losses From Labor Disputes

In Six Months Equalled Two Months' Work Per Man

Ottawa.—The labor department announced that in the first six months this year 54 man working days were lost through labor disputes for every 1,000 employees in Canada compared with 381 man working days in the United States and 35 in Great Britain.

This meant that for every 1,000 employees in Canada the equivalent of two months' work of one man was lost in the six-month period, the department said.

An accompanying statement showed 29 disputes recorded in Canada during July compared with 21 in July, 1940. Disputes in the latest period involved 21,860 workers and time loss of 48,572 man working days while in the same period last year 8,563 workers and time loss of 21,186 days were involved.

Faster Shipping Route

Has Been Surveyed For Getting War Supplies To Russia

Washington.—The coast and geodetic survey disclosed that it had surveyed a faster route for shipping war supplies to Russia than the normal route to Vladivostok. The new route is from Seattle to Komsomolsk, Siberia.

No distances or sailing times were given but officials said the new route avoided the region of westerly gales encountered by ships in the normal trans-Pacific routes.

Officials hinted that the route would be safer from potential Japanese interference than the Vladivostok route.

More Jap Troops

Saigon, French Indo-China.—Additional Japanese transports and supply ships arrived here and began unloading what was presumed to be the last of the troops and material for Japan's newly-acquired bases in southern Indo-China.

Crew Members Saved

Recife, Brazil.—The captain of the torpedoed British steamer Horn Shell, who with 14 other survivors reached here, said that all 57 crew members had been saved.

CANADIAN ARMY DEMOLITION SQUAD

Clambering along a railway bridge high over a rushing torrent, this demolition squad is making preparations to "blow up" the structure during exercises at Petawawa training camp.

Frenchmen Held As Hostages After Nazi Officer Assassinated

Pétain's New Setup

French Chief Of State Adopts Medieval Form Of Government

Vichy, France. — Chief of State Marshal Pétain definitely ordered reorganization of unoccupied France along medieval provincial lines.

He instructed the national council, charged with the reorganization, to create virtually autonomous provincial regimes, ruled by governors whose authority and prestige would be incontestable.

The new setup, as outlined by the marshal, carries out one of his favorite ideas of "centralized decentralization," or authoritative local governments subject to the central government only for general policies.

His letter told the committee the head of each province "will be a governor, a high personality representing the chief of state." The provincial council, he said, will be a simple advisory body and "in no case shall it be transformed into a political assembly."

Canada's First Gun Mount

Was Inspected In Hamilton Plant By British Vice-Admiral

Hamilton, Ont. — Vice-Admiral A. E. Evans head of the British admiralty technical mission inspected the first 12-pound gun mount produced in Canada for the British admiralty at the Hamilton plant of Sawyer-Massey, Limited.

The mount is designed for an anti-aircraft and anti-submarine dual purpose gun.

The vice-admiral made a tour of the plant and later addressed workers. He said it was a "remarkable achievement" that within four months men who had never seen such an object had converted machinery used in peacetime for other purposes and produced the new mount, first of many to be produced for the admiralty. The plant manufactured agricultural implements before the war.

Pay Increase For Australians

Adjustments Being Made For All Branches Of Service

Melbourne.—The Australian federal cabinet has agreed in principle on an immediate increase in pay and allowances for the fighting forces but basis of the increases has not been announced.

It is expected the increase will be from 24 to 30 cents a day for an army private plus an extra allowance of 12 cents a day for each dependent child. Other services, better paid than the army at present, probably will receive upward adjustments to meet the increased cost of living. The government also may increase the rate of war pensions.

Secret Membership Rolls

Mexico City.—Secret membership rolls of the German Nazi party in Mexico have been obtained by the United States embassy and are being used as a guide for Washington's economic offensive against pro-Axis interests here, an authoritative source stated.

Taking Over Beach

Port of Spain, Trinidad.—United States naval authorities notified the Trinidad government they will require immediately one of the most popular bathing beaches near this city for use of the U.S.-lease base at Teteron Bay.

Despite Losses And Reverses Russia Is Confident Of Victory

Moscow.—Russian withdrawal from Gomel on the central front after a great battle was acknowledged by the Red army. Despite this loss, and admitted reverses in the Ukraine, a Soviet spokesman declared 2,000,000 Germans have been killed or wounded in the two months of a war that has "only begun."

Heavy fighting is continuing in the Gomel sector, said the communist, which announced the withdrawal, and the Red defence also was described as especially stubborn in the Novgorod and Kingisepp zones.

But these, said S. A. Losovsky, vice-commissioner for foreign affairs and Soviet spokesman, were only temporary successes for the invaders in a land of fabulous size, and had been accomplished only at enormous cost.

For, he added in declaring that more than half of all German casualties, or more than 1,000,000, had been killed, "mankind has not known such losses in such a short time."

Losovsky voiced defiance while admitting that the Germans had made large advances.

Denying alarm or pessimism in the Soviet ranks, he declared the areas occupied by the Nazis were actually small when compared with all Russia.

Only areas "without provisions, containing only wrecked cities, ruined factories . . . guerrilla warfare and local hatred" have fallen to the Germans, he declared, and he continued with defiance:

"It couldn't occur even to a crazy Hitlerite that the German army is capable of smashing the U.S.S.R., Great Britain and then the United States."

Germany, he added, will be beaten "no matter how many months or years we have to fight."

What's New for Fall?

DUKE OF KENT GIVEN ROUSING WELCOME; IMPRESSIVE PARADE HELD IN HIS HONOR AT TORONTO

ON OUR post-convention visit to various places in Eastern Canada, a day in Toronto provided plenty of interest. After a railway journey by Canadian Pacific from Montreal on a fast train with facilities for complete relaxation, through a countryside which has a pastoral, peaceful atmosphere, we arrived from Montreal, Canada's largest city of over a million people, to this, the "Queen City of Canada," the population of which is now listed at over 800,000. It was evening when we arrived, and our curiosity was aroused as we entered the spacious hotel to find crowds of people waiting expectantly as if for something exciting to happen.

Enquiry revealed that the Duke of Kent was in the hotel, and would soon be coming from his suite to attend a dinner at the home of the lieutenant-governor, of Ontario. Word soon spread around and the entrance to the hotel was lined with people anxious to get a glimpse of the royal visitor and brother of King George. Promptly at 7:30 he appeared, and was greeted with enthusiastic hand-clapping as he emerged from the hotel elevator and with a small accompanying party proceeded to a waiting automobile. He was dressed in the uniform of the Royal Air Force, and acknowledged the unofficial and impromptu reception with a smile.

The Duke did not stay out late, for he was back in his suite by 10:30 p.m., and life went on around the hotel in the ordinary way. The Duke was not besieged by autograph seekers or Press men, but went in and out of the place in a quiet yet dignified manner. Some American friends from Texas who had accompanied us from Montreal enquired of us the Duke's first name, and frankly we had to admit we didn't know. He impressed them by his dignified simplicity, and they remarked that a visit to Toronto was well worth while while even if they only saw the Duke. They wondered that we did not make more fuss, particularly now that we are at war, and were surprised that there is not a great deal more war talk and enthusiasm.

Soon after 9 a.m. the following morning a glance from our room window revealed that khaki-clad soldiers were lining the streets adjacent to the hotel, which meant that there was to be a real show. Bands were playing, and there was an air of expectancy. Inside and outside of the hotel, people were assembling and at 10:30 the Duke again appeared to visit the John Inglis Company plant where Bren guns are being turned out for the war. While the crowds waited, along came the brilliantly uniformed band of over one hundred men of the United States Navy, led by an imposing drum major, with large Union Jacks and Stars and Stripes flags carried by war veterans. All Americans took off their hats and saluted the flags as they passed, while the Canadians for the most part neglected to so honor the flags, indicating that we are not as demonstrative in our patriotic fervor as are our friends to the south.

Then came men of the Royal Canadian Air Force, headed by their fine band and drum major. Many Americans were among them, men who had volunteered for active service in Canada's forces. Infantrymen, tank regiments and other units followed, making an inspiring array of marching men, while crowds cheered and clapped as they passed. Holiday visitors were thrilled, for everyone loves a parade.

Color was given to the assembly by Polish and Norwegian sailors, soldiers and airmen, of whom there are many at the various training schools in the vicinity of Toronto. They with the large number of our Canadian soldiers, sailors and airmen make us realize that Canada is at war. The white uniforms of the Canadian Navy with their depot band were a striking feature of the parade, and bring home to the people that despite all criticism, some of which may be justifiable, Canada is wholeheartedly in this war, judging by the fine young men seen in all branches of the fighting services.

The morning was fully taken up with this imposing array, while at the John Inglis plant, of which we heard so much a couple of years ago, the Duke was inspecting the methods of production and talked quite freely with various employees. His return to the hotel along a route lined by troops was the occasion of another outburst of enthusiasm, and to close the proceedings the bands and troops marched past the Royal York hotel.

The afternoon was spent quietly and informally by the Duke in visiting friends with whom he had become acquainted in England and other places during his travels. No undue fuss was made in the hotel, and as far as outward demonstration went he was just a guest the same as were hundreds of Canadian and American holiday visitors to the city. And maybe he likes best to be free from pomp and ceremony, simply carrying on as representative of his brother, the King, symbolic head of the Great British Commonwealth of Nations.

Why Sliced Bread Cannot Be Sold

The order which ended the sale of sliced bread in Canada on August 11 applied to bread in any form including bread rolls and any other rolls made from unsweetened dough, according to a statement issued by the Wartime Prices and Trade Board.

Cessation of the sale of sliced bread was ordered as a means of conserving labor and electric power and of avoiding the additional cost of double wrapping of sliced loaves. The purchase of slicing machinery is not only a factor in determining the retail price of bread but, as a considerable portion of this slicing equipment is manufactured in the United States, replacement would mean the expenditure of foreign exchange now needed for the purchase of munitions of war.

CAPTAIN E. S. BRAND, R.N.
Director of Naval Intelligence, Department of National Defence for Naval Affairs.

Pathfinder: There is a lot of talk about the American standard of living having to be lowered during the emergency. But we note that it always manages to keep several jumps ahead of the American standard of earning.

Do You Know?

Our Dominion war expenditures last month reached the record figure of about \$108,000,000.

Our total Dominion expenditures are now running at the rate of \$3,000,000 or \$4,000,000 a day.

This is not all that must be found since we are providing Britain with nearly as much as this every day to assist her in her purchases in Canada.

Britain has required since the beginning of the war until June 30, 1941, no less than \$1,070,000,000 to finance her purchases in Canada.

The estimates this year call for an expenditure of well over a billion dollars. The Victory Loan provided much of this money but not enough. The balance must be raised by borrowing the savings of you and other Canadian citizens.

If you are financially able you are asked by Hon. J. L. Hsley to boost your war savings purchases. The government needs the money NOW!

LOCAL AND GENERAL NEWS ITEMS

Mr. Cyril Hibbert, of Coal Spur, Alberta, is visiting relatives here.

Miss Edna Morris is spending a week's vacation at McBains Lake.

Pte. John Kanik, of Calgary, spent the weekend visiting his parents, Mr. and Mrs. C. Kanik.

Mr. and Mrs. J. Fairhurst returned home after spending a three weeks' vacation at Vancouver.

Mrs. Henry Hutton, of Calgary, is visiting her parents, Mr. and Mrs. Jack Nash.

Mrs. A. Gentile had as her guest for a few days, her niece, Miss Elsie Wheatley, of Trail.

Mr. and Mrs. DeKlyn Sr., and Mr. and Mrs. DeKlyn Jr., were Calgary visitors at the weekend.

A miner's vote awarded Dr. J. H. Blair, the Blairmore medical practice. Dr. Blair now takes over the practice left by Dr. Stewart, who has enlisted for army service.

Mrs. Wm. Milley entertained a number of ladies at tea at her home on Wednesday of last week.

Mr. and Mrs. James Walker, accompanied by Mrs. A. Walker, visited at Calgary at the weekend.

Post Office hours on Labor Day, September 1st, will be from 8:30 a.m. to 9:30 a.m.

Pte. Fred Lees is home on fourteen days' furlough. He is stationed in Eastern Canada.

Ernest Collier left on Friday for Lethbridge where he will spend a week's vacation.

Miss Elsie Snider returned home last Sunday after spending six weeks at Waterton.

Born: To Mr. and Mrs. James Lloyd, of Blairmore, (nee Helen Mahovich) on Sunday, August 24th, a daughter.

Mr. and Mrs. Godfrey and son returned home after spending two weeks' vacation visiting B.C. points.

Miss Emily Hirsch, of Lethbridge, is visiting at the home of her sister, Mr. and Mrs. R. Jackson.

Mr. and Mrs. Goldring and son, Thomas, returned home after spending a two weeks' vacation at Vancouver.

Jack Towers, of Edmonton, returned home on Tuesday after spending a two weeks' vacation with Mr. and Mrs. Harry Gardner.

Dick Fisher, Thomas Poxton, John Yurasik and Mike Corman received their call for the army and left for Camrose on Wednesday.

Mines Inspector W. E. G. Hall, of Lethbridge, was in town last week renewing old acquaintance with a number of friends.

Miss Margaret Smith returned home on Sunday from a month's vacation visiting relatives at Bowden.

Miss Pearl Morris, of Fernie, returned home after spending a week's vacation the guest of Mr. and Mrs. Bert Collier.

Mr. and Mrs. A. Belevich spent a week's vacation at Calgary and Banff and returned to their home last week.

Calgary Intermediates succeeding to the title of Alberta Intermediate baseball champions which has been held by Pucksters during the past two years. The locals failed to defend their championship this year.

John McGregor, who has been employed at Edmonton for the past few months, is visiting his parents, Mr. and Mrs. Tom McGregor.

Danny Lewis, of Blairmore, is checking up on radio owners this week. All those failing to have radio license will be prosecuted.

John Cairney received painful injury while at work on Friday. His injuries consisted of a fractured finger of the right hand and cuts and bruises of the legs.

Mr. Henry Zak, of Economy Meat Market, had as his guest an old friend from Washington, who took pictures with his movie camera of the staff and management at work in this progressive store.

Mr. and Mrs. Jim Kerr and children returned home from Medicine Hat this week. Mrs. Kerr and children have been vacationing at the Hat, where they were the guests of Mrs. Kerr's parents, Mr. and Mrs. A. D. May.

Mr. and Mrs. Alan Brown motored to Edmonton last week to bid good-bye to their son, Vernon, who has received his call to the R.C.A.F. They were accompanied home by John McGregor, who had been employed in the city for several months.

A miscellaneous shower was held in St. Alban's church hall on Wednesday evening in honor of Mrs. Robert Salant, nee Elsie Carmelo. Hostesses included Mary Milley, Doris and Milly Griffiths, Minnie Joseph, Mrs. B. Gentile, Mrs. Richards and Mrs. D'Andrea.

Mr. and Mrs. J. M. Chalmers spent the weekend at Calgary. They were accompanied to the city by Mrs. Chalmers' mother, Mrs. Robert, of Edmonton, who had been their guest during the past week. Mrs. George Graham was in charge of the jewelry store during their absence.

WEDDINGS**CYR - MARCIAL**

St. Anne's Catholic church, Blairmore, was the scene of a very pretty wedding, at 9 a.m., on Saturday, August 16th, when Mary Ann, third daughter of Mr. Mike Marcial, and the late Mrs. Marcial, became the bride of Mr. Bert Cyr, of Coleman. Rev. Dean M. A. Harrington officiated.

The bride, who was charmingly attired in a black tailored suit with white accessories and carried a bouquet of carnations and roses, was assisted by her sister, Miss Ida Marcial, who chose a navy ensemble and carried a bouquet of mixed flowers. Mr. Angelo Evans supported the groom.

Twenty-five guests were present at the wedding breakfast, held at the home of the bride's parents. The beautifully decorated table was centred with a four-tier wedding cake. Rev. Dean Harrington proposed the toast to the bride to which the groom very ably responded.

The happy couple will take up residence in Coleman, where the groom is employed.

WORLD HAPPENINGS BRIEFLY TOLD

The Germans have released from German prison camps the last of French officers who were veterans of the First Great War.

Australia will shortly send overseas its first army of women for non-combatant service, as soon as shipping accommodation is available.

The admiralty announced approximately 4,007,000 tons of Axis shipping had been sunk, captured or scuttled from the start of the war to Aug. 16.

Queen Wilhelmina of The Netherlands has been appointed an Associate Dame Grand Cross of the Order of St. John, according to an announcement in the London Gazette.

John Coates, 76, one of Britain's most famous tenors, died at Northwood, Eng., after a long illness. He toured Canada and the United States in 1925-26.

German propaganda leaflets dropped in the south of England helped swell Britain's Spitfire Fund. A cottager found a parcel and sold the leaflets at a penny each.

New Royal Australian Air Force squadrons will be formed abroad at the rate of one every three weeks to reach Australia's new objective of 23 overseas squadrons by next May.

Parents in South Buckinghamshire, England, have been warned by the ministry of health to keep their children from motion picture theatres and swimming pools following an outbreak of infantile paralysis.

The Japanese government announced that three types of American movies—gang thrillers, ultra-torrid romances and those depicting "wasteful extravagances"—will be barred from showings after Sept. 1.

Crowds Mean Loneliness

More Real Friendliness Is Found In The Smaller Towns

Loneliness is a state of mind. Social life is not the desire of all people, nor is it a charm that produces happiness.

There is greater neighborliness in sparsely settled districts than in small towns and populous cities.

Many rural people, particularly the younger one, yearn for city life because they think crowds do not mean loneliness. The more thickly populated the city, the greater the pain of isolation.

There is no loneliness so acute and cruel as the unfriendliness of crowds. The warm and helpful intercourse of the village, settlement or "lone" family home and real friends belong to the country. The average big city man feels too big to be human. He is a man, selfish, one-way man, who doesn't know his neighbor. The city life has shriveled up his soul and he is too proud of his environment to let his human heart feel instincts of friendship.

Just An Old System

Letters Were Photographed For Pigeon Mail 71 Years Ago

The "new" system of photographing letters from the forces in the Middle East to lessen weight of air mail is described by "Peterborough," London Daily Telegraph columnist, as "just 71 years old."

Delving into the post office archives, he discovered that the first time the system was used was in maintaining communications between London and Paris in 1870 when the "pigeon post" made history.

Letters intended for this novel mode of transmission had to be sent to headquarters of the French post at Tours. Here they were copied in consecutive order and by a photographic process transferred in reduced form to a diminutive piece of very thin paper such as a pigeon could carry. The photographs were enlarged on arrival and a legible impression obtained.

The number of post offices in Canada has increased from 3,470 at Confederation to more than 12,000.

of soft coal is contained in a cord of hard maple, oak, beech, ash or hickory wood.

Some English Humor

Taken From Punch Shows Britons Can Still Laugh

By the way, what has Switzerland done not to be encircling the Reich? Dandelion salad is excellent, we are told. And so easy to grow! Just plant grass-seed.

Owing to the cheese shortage a naturalist in endeavoring to breed a type of mouse that likes potato in its mouststraps.

A London restaurant advertises that it has no music, homely cooking, quiet, efficient service and an old-time atmosphere. What! Onions?

Before the war Germany dumped thousands of cheap alarm clocks in this country. Which is probably why we took such a long time to wake up.

The German police system differs from any other, we are told. For instance, no citizen of the Reich would dream of ringing up the Gestapo to say he had lost his umbrella.

TOTS' VERSATILE SAILOR OUTFIT

By Anne Adams

Even little girls "take to the sea." This Anne Adams style, Pattern 4765, has versatility and pert freshness. The dress buttons conveniently down the front, has smartly squared-off side skirt sections and offers three neckline versions. A collar that's squared at both front and back, pointed front revers or a collarless V-neckline. There are two sleeve styles: neat little puffs and tiny open caps, as well as a sleeveless version. The back of the dress may be cut low for sunbathing. You might let the collar contrast and use gay braided trim, an embroidered star motif or ric-rac. The saucy sailor cap may match the contrast or the dress.

Pattern 4765 is available in children's sizes 2, 4, 6, 8 and 10. Size 6, dress and cap, takes 2 1/2 yards 35 inch fabric, 1/2 yard contrast and 1/2 yard braid.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Prices Are Specified

Clothes Retailing In Britain Includes Certain Second-Hand Articles

Second-hand clothing costing more than certain specified prices is rationed under revisions in the clothes rationing scheme, first announced in June. Various classes of furnishing fabrics are exempt, and variations are made in the number of coupons required for certain articles.

"We have done this to put a stop to what might have proved a serious racket in second-hand clothing," said a Board of Trade official.

The Board of Trade has fixed a maximum price for each coupon value above which the buyer must surrender the full number of coupons. This means a man who buys a second-hand suit for more than 52 shillings (about \$11.75) will have to give up 26 coupons, the standard number for a new suit.

No Meat Increase

Food Minister Lord Woolton, in a speech at Cheltenham, informed Britons they could expect no increase in the meat ration as long as the war lasts.

Canadians cannot afford to waste port, gasoline or time.

EVERY CAR SHOULD HAVE ONE

Every Canadian motorist who sets out to cut down his consumption of gasoline and oil by half is being asked to place a 50-50 pledge sticker on his motor car. Authorities hope that within a very short time the car which does not carry this sticker will be the exception.

Not Limited To South

Canada's Sugar Plantations Different But Serve Same Purpose

Sugar plantations are not necessarily limited to the regions of the south for Canada had 80,000 acres of them in 1940. Forty thousand of these acres were in Ontario, 24,000 in Alberta and 16,000 in Manitoba which indicates a fairly wide distribution. The acreage is no less in 1941 and it is quite possible that the plantations will extend into Quebec province by 1942. The essential difference between Canadian sugar plantations and those of the south is the substitution in Canada of the sugar beet for the sugar cane, but each produces identically the same kind of sugar. States F. Mimcock, Division of Forage Plants, Central Experimental Farm, Ottawa.

A record yield of 825,344 tons of sugar beets was harvested in Canada last fall, and since each ton produces nearly 300 pounds of refined sugar this meant a total production of 213,602,511 pounds of refined sugar, or 18.5 per cent. of Canada's refined sugar production. If conditions for the 1941 crop continue favourable, this production should at least be maintained if not increased.

The infant of the sugar beet industry is the Manitoba acreage. While small acreages were grown in that province in previous years, large scale production began only in 1940 when a beet sugar factory was erected near Winnipeg to handle the crop. Alberta's sugar plantations are distinctive from the others in at least one respect and that is their location on irrigated land. Two factories are equipped to handle the beets, one at Raymond and the other at Picture Butte. Ontario has three factories located at Toronto, Chatham and Wallaceburg, respectively, and these handle the crop from the extensive plantations which occur throughout the counties of Kent, Lambton, Essex, Elgin and Middlesex.

Counting The Money

Takes Longer Than In Old Days Says British Banker

On June 30 the Banks in this country made their half-yearly count of the money they hold which, said a bank manager, might amount to around £150 millions.

"Counting cash to-day," he said, "takes longer than in the old days. When I first joined the bank golden sovereigns were in circulation, and these were easy to check as they were just weighed on scales, like sugar. The pound and ten-shilling notes of to-day are fiddling things to count. I suppose it takes, on the average about five minutes to count five hundred notes. If they are very new or very dirty, they take longer."

"There are still some notes about of the curious denomination of three hundred pounds. These have not been issued since 1887, but they have not all yet been returned to the Bank of England. Notes stay in the hands of the public for a very long time. The Bank of England is still receiving, even to-day, the one-pound notes issued in the times of the Napoleonic wars, and it promptly pays them. Then there are quite a large number of two hundred pound notes about somewhere, and these have not been issued since 1923.

"Really large notes—for five hundred pounds and a thousand pounds—are still used. These notes are to be found in the vaults of our banks, where they form part of cash reserves, although sometimes they are used by the public for some important financial transaction where a cheque value is unacceptable."—London Listener.

Bedding Shortage

Beds, mattresses and pillows are becoming scarce in Britain. Beds having mattresses with inferior springs soon will not be available generally, say manufacturers. Many large London stores are having difficulty obtaining bedding. Pillows are scarce because of a shortage of feathers imported from China before the war.

An electric eye has been developed for determining the protein content of wheat.

Plenty Of Thrills

Mine-Layer Tells About One Of Most Dangerous Jobs

This story was told by a mine-layer: Life aboard a mine-layer is one thrill after another. We never know how near death lurks ahead, so we try to make the most of life as we go along. Another thing, a mistake is never forgiven, for an accident in handling our death-dealing cargo may be the end of the man who makes it, and also all his mates.

On a mine-layer we know no eight-hour day. We have to work not by the clock, but by the job in hand. Sometimes we work 10, 20 and even 36 hours at a stretch, with hardly a break between to snatch a morsel of food and a drink.

I once worked 50 hours at a stretch and after a long sleep, felt no worse for it. Then a day later I was detailed for another mine-layering raid that lasted a day and a half.

Due to the nature of our calling, mine-layering crews are always picked men, all us to the sea. And we know how to handle a sea-bomb or sea-mine so that there is little likelihood of it "going off" beforehand. This is important, for our ship has a capacity for carrying several hundred mines, the explosion of one being enough to send us to the bottom.

Mine laying under cover of darkness has its compensations as regards greater safety from observation. But it complicates the task of laying each mine strictly according to plan. On the other hand, daylight mine laying enables us to place each sea-bomb just where we want it, but we have to be on the look-out all the time for fear the enemy comes on us from all four quarters.

Contrary to popular opinion, sea-mines are not dropped about indiscriminately. They are laid according to plan. This plan is a conglomeration of what looks like numbers and crosses, the same children's play. In reality it is a detailed plan.

May Seem Peculiar

But United States Depends On Britain For Cotton Fibres

Cotton wool, in its increasing amounts, into full-length stockings, but in this field it is likely the United States knitters will have to call on Britain for help.

This may seem peculiar at first glance, in view of the fact that the United States is the world's greatest cotton producers, but the trouble is that only long staple cotton can be used in making thread for sheer hose, and the United States raises little of this type cotton outside of Georgia and the Mississippi Delta.

The big growth of long staple fibres in Egypt, and the spinners of Manchester, England, are properly tooled up to handle the thread American need. It is anticipated that shipments of English lisle thread will be arriving on the Atlantic seaboard within the next six weeks.

Why A Hog Root?

Why does a hog root? The answer is that there is some mineral or organic matter lacking in the feed supplies. If they are supplied, the hog quits rooting. Animals that make attempts to eat material unfit for food or practically dangerous to their health, are not necessarily cases of depraved appetite.

Speaking Of Statistics

Somebody has gone to the trouble of figuring out that during one inch of rainfall, 113 tons of water fall on an acre of ground. Which isn't much consolation to a fellow who is caught out in a downpour without his umbrella or raincoat.

Coffee (a town) is located in Bacon county, Georgia.

SUNDAY SCHOOL LESSON

AUGUST 31

JOHN URGES CHRISTIAN LOVE

Golden text: Let us not love in word, neither with the tongue; but in deed and truth. I. John 3:18. Lesson: The Epistle of John. Devotional reading: Hebrews 13:1-8.

Explanations and Comments

The Secret of Assurance of Salvation, I. John 1:13-15. It is natural that the worldly should hate those whose lives commend their own practices. The test of our lives is not the world's hatred but our own love. John tells his readers not to be surprised at the hatred of the world, and continues in The Expounder's Greek Testament translation: We know that we have migrated out of the domain of death into the domain of life, because we love the brethren; he that loveth not abideth in the domain of death; everyone that hateth his brother is a murderer, and ye know that a murderer hath not life eternal abiding in him.

"For myself I have no evidence of my salvation other than this, that I love the brethren. If ever a root of bitterness springs up in my heart, all the sweet certainty of salvation disappears while I am thus, and ye know that a murderer hath not life eternal abiding in him."

The Proof of Love, I. John 3:16-18. We know what is the perfect type of love, for we know how Jesus' love led him to lay down his life for us, and we should be as our Lord, we should sacrifice ourselves for others. Love should be practical. How can any one of God's love be in one who fails to show compassion upon a brother in need? "Shuttest up his compassion," the metaphor here is locking the chamber of the heart instead of flinging it wide open and lavishing its treasures (Expounder's Greek Testament).

The Blessedness of Love, I. John 4:7-21. In verse 7 John tells us that love is not an attribute of God but his very being, and since love proceeds from God, we who are his sons must prove our sonship by our love. The negative counterpart of verse 7 given in verse 8 emphasizes the thought that "Love is the lens through which one discerns the secret things of God."

The Incarnation was the manifestation of God's love: For God so loved the world that he gave his only begotten Son, that whosoever believeth on him should not perish but have eternal life, John 3:16.

One Of Best Sellers

Churchill's Recorded Speeches Popular In Many Countries

There is a world demand for Winston Churchill's speeches now done for the gramophone. They are being bought up in Australia, in Canada, in India, in New Zealand and in South Africa, and again in their own homes American citizens are listening to his "Give us the tools and we will finish the job."

Mr. Churchill has joined the best sellers among whom to-day are Paul Robeson with his "Trees," Richard Tauber, now a British subject ("Beggars in Paradise"), Webster Booth ("Till Walk Beside You"), Joe Loss ("You Say the Sweetest Things").

Great Britain shipped more than 4,000,000 gramophone records overseas last year, and matrices (the dies from which records are stamped out) are not included in this colossal total.

The most popular records of recent years are Paul Whiteman's "Rhapsody in Blue" which has sold more than 80,000 to date; Richard Crooks' "Ah, Sweet Mystery of Life" (140,000); and the top score is Ernest Lomb with 680,000 and still selling. He was a Temple choir-boy when he made his lovely "Hear My Prayer."

To-day he is a stalwart fireman, training a choir from the Auxiliary Fire Service at Harrow-on-the-Hill.

It Is The Law

Odd Things Which Are Forbidden In Some States

A California automobile law provides that motorists, beginning with Jan. 1, 1942, shall keep the same license number and license plate during the life of the car.

In Los Angeles, it is illegal to shoot at rabbits from a moving street car. There is a town in Minnesota which forbids young women under the age of 21 from dancing in public.—Christian Science Monitor.

No More Soup Bones

The soup bone has been abandoned by the U.S. Navy as a defence measure. The bureau of accounts and supplies announced that the Navy is seeking to relieve the storage space problem aboard warships by taking the bones out of beef.

He—Honey, I've brought something for the one I love best. Guess what? She—A box of cigars.

Why is it that some passengers think the ticket agent sold them the train?

More than half the population of England has dark hair, though they are regarded as a fair-haired race.

HEALTH CONSERVATION

"Health conservation cannot be achieved unless citizens and legislators alike have constantly in mind, as the highest conception of patriotism, not veneration of the forests and hills and rivers of a country, but the interests of human beings," says an editorial in the current issue of "Health," official organ of the Health League of Canada, urging the immediate need for a progressive National Health program for Canada.

The writer suggests that "failure of our educational institutions to inculcate ideals of public service and unselfishness" is more to blame for the general apathy on health matters than is ignorance of the need for reform.

"It would seem that there are those who think that democracy means freedom to 'acquire' at the expense of the other fellow, and that any restriction of the predatory instincts of the few is a blow at the foundations of freedom itself. In a word, selfishness has been allowed unrestricted scope," he declares.

He urges that humanitarianism as a political objective be taught in Canadian schools as a first step toward social security and a higher standard of national health.

Due To The Heat

Man Swelled Inside Boiler And Could Not Get Out

It was 90 degrees outside at Chicago, hotter inside, when Joseph Hergeth, 47, dropped his brush and started to crawl from the boiler he had scrubbed.

His sigh of relief changed to a gasp as he wriggled in the small opening through which he had entered, three hours before.

"Gimme a hand," he yelled. "I'm hot. I've swelled up."

Companions grabbed him and yanked. Slightly scraped and no cooler, Joseph remained within the boiler.

Firemen were preparing to cut a hole in the boiler when a mechanically-minded workman handed the prisoner a pot of grease.

Stripping, he applied it and stuck his head through the hole again. Firemen tugged and Joseph still hot but more slippery, was free.

Came Along Regularly

Good Story About Norwegian Sailor And The Loudon Times

According to one of the latest anecdotes from Norway, a young sailor in Bergen was sitting on his front porch reading a day-old copy of the Loudon Times when along came an agent of the Gestapo. The mere sight of this newspaper was enough to enrage the German, but when he discovered how recent its date was, his wrath boiled over in guttural invective.

"How did you get possession of that verboten and verdammt paper?" "Get it?" calmly replied the sailor, "I didn't get it. I subscribe to it—News For Norway."

Friend To Soldiers

The Duke of Connaught, former governor-general of Canada, never fails to give weary hitch-hiking soldiers a lift. He has ordered that the space usually occupied by a footman in the front seat of his car be reserved for foot-sore soldiers.

MICKIE SAYS—

NO POLITICAL CANDIDATE EVER SAYS "EVERYBODY KNOWS ME-I DON'T HAVE TO ADVERTISE." GETTIN' VOTES'R GETTIN' TRADE MEANS Y'GOTTA GO AFTER 'EM—AND ADVERTISE!

"FEEL EVER SO MUCH BETTER SINCE I'VE BEEN EATING KELLOGG'S ALL-BRAN"

"I suffered from constipation for some time, and tried all kinds of medicine, but relief lasted only a short time. Finally I tried ALL-BRAN, and I am ever so much better since eating this delicious cereal every morning," writes H. Mason, St. Faustine Village, Que. KELLOGG'S ALL-BRAN helps you get at the cause of constipation due to lack of the right kind

of "bulk" in the diet. Eat this delicious cereal (or try it in muffins) plenty of water. But remember, it doesn't work like harsh purgatives. . . . ALL-BRAN takes time. At your grocer's, in two convenient size packages or in individual serving packages at restaurants. Made by Kellogg's in London, Canada.

DAUGHTER OF DESTINY

—BY—
Eleanor Atterbury Colton

CHAPTER XXI.

After that tete-a-tete supper in his handsome apartments, Jose Macias seemed only to be waiting for Devona to break. His kindnesses, his thoughtful attentions, his every gesture only reassured her that the menace, if temporarily withdrawn, was an ever-present threat.

Steeling herself, she matched wits with him, returned smile for smile, gave not an inch in her defense. Careful to try to please him through pleasing his patrons, she daily hourly, made herself indispensable to his business. Her smiling, gracious manners, her rapidly growing repertoire of songs, her varied and elaborate costumes—all part of her desperate effort to insure this job.

It wasn't long before the suspicion, planted the first time she looked into the secret wall safe hidden in his office, grew life-sized and intriguing. Something strange, some secret activity absorbed Jose Macias. She was sure of it. Something from which he profited huge sums. Something that had little or no connection with the El Mexicano.

Flushed and excited, or depressed and acridly bitter—his very moods were a barometer. Always the result of some mysterious telephone call, a hurried trip, alone, in the powerful coupe. If once she learned just what was behind all this mysterious coming and going—that might prove the solution to her problem!

But she did learn the combination to the safe. Macias often insisted she wear the lovely mantilla and the jeweled comb. And just as often, she insisted the valuable ornaments be returned to the wall safe.

Once, she'd set her mind to it, it was simple to watch, to listen—without appearing to do so—as he turned the dial. Around three times, back twice, around again, back half-way. Not that she'd ever have occasion to get that interesting bit of information. Macias seldom left his office unlocked. Still, there was no harm in knowing. And perhaps some advantage.

Soon, however, her curiosity concerning Macias was brushed aside by a deeper, more compelling emotion. Once again, a newspaper item, a picture of Dale Brasher, a glowing headline thrust that too-familiar image back into her conscious mind. This time, the headline taunted her from the news rack in her hotel lobby.

YOUNG ASSISTANT D. A. LYNCHES CAMPAIGN TO 'CLEAN CITY'

Devona dug a coin from her purse, snatched the paper from the rack, her eyes racing over the fine print.

"Young Dale Brasher, assistant to Los Angeles County District Attorney Martin, set underworld chains looking to their defenses this week when his raid on the Ling Wang Lui Restaurant netted him real evidence in his war on the city's dope rings."

Dale hadn't missed this time! She flushed with pride in spite of herself. He would succeed. He was bound to. Hungrily, she studied the poorly printed photograph, read every word in the long column. The city needed clean-cut, ambitious, fearless young men like Dale Brasher, the staff applauded in a challenging editorial. The city was proud of this stalwart young hero and should do everything possible to assist and protect him in the dangerous fight he'd undertaken.

Protect him! The words leaped at her from the page. And with his every successful step, Dale was prob-

ably in increasing danger. Some hiring, some wild bullet, even an accidental shot from the gun of a co-worker—Dale's life might be sacrificed any moment.

But day by day, the mounting evidence of Dale's success piled high in every edition of the daily papers. Los Angeles, aroused to the importance of his fight, cheered from the sidelines.

He was succeeding magnificently, she realized, thrilled but—and anxiety rose again—at what terrible cost? Probably hundreds of people deprived of easy money hated Dale Brasher. It would only take one to put Dale out of the way.

One evening, as Devona sat as usual at a small, half-hidden table eating her early dinner, Macias crossed the deserted dining room to join her. He'd taken to dropping into the opposite chair very often lately. His manner always casual, his courtesy unflagging, his intentions unmistakable.

"I see you are interested in my young friend's crusade," he smiled when he'd given his order to the waiter hovering solicitously. "Been doing a wonderful job, hasn't he?"

Because of the jealousy rising quickly into those black eyes, Devona tried to say casually, "Yes, marvelous. I only hope he doesn't lose his life in the process."

Macias nodded. "He's boy has been lucky so far. The probability is that before he's through, though. He's in too deep, I'm afraid."

"Looks like it." She forced lightness into her tone, deliberately changed the subject lest her tell-tale anxiety betray her.

But, a moment later when she glanced across the big dinner room, recognized Dale's well-proportioned height, actually looked squarely into his face, her own cheeks blanched. "Speaking of the devil," she muttered flippantly, diverting Macias' attention with a little nod. "There's Brasher now. Probably looking for you."

"So it is." Pushing back his chair, Macias rose, crossed smiling to meet him.

Dale looked tired, she thought, watching the two men shake hands. Tired and much thinner. Once he glanced over Macias' shoulder, looked squarely at her for a moment. But—as if she were only part of the furnishings, he glanced away again, indifferently. Not even a nod of recognition.

From the corner of her eyes, she saw them disappear into Macias' private office now.

"Smatter? Swallow a fish bone?" Grinning, Manuel lounged into the chair Macias had just left. "Or did you and the big boss have a lover's quarrel?"

"No, silly. Why?"

"I don't know how you get away with it, at that," he went on frankly. "Now the last dance Macias had here—"

Freda Camp, you know—ever seen her?"

Devona shook her head. "She hangs around here a lot—that is until Macias gets really sore and kicks her out again. She's nuts about him. And not bad-looking either. Or she wasn't! Poor kid."

"Why? What happened?" "Oh, she came in to the big city from her old man's ranch all blond and blue-eyed and ambitious to be big stuff. And she falls for Macias' dark-eyed romance like a ton of ripe fruit. Macias got tired of her, of course. Now she's all washed up. "But the little dope still sticks around, hoping for another break. I don't see how they figure to come ahead, these dames. But they do. Every time." He grinned, pulled himself out of his chair.

A moment later, Manuel passed her table again, whispered hoarsely, "There's Freda now—the blond baby at Diego's first table. See her? She'll wait for a chance to snag Macias. You watch. Probably out of dough again."

Across the room at one of the side-wall tables, a small woman with hard, blue eyes much too large for her pinched white face, sipped a drink slowly. Her suit was several seasons old, her furs shabby, her

make-up too obvious. Macias' cast-off girl friend, Devona watched the girl's transparent attempts at nonchalance, her pathetic eagerness every time the door to Macias' office opened.

When he finally did come out, said goodbye to Dale, the girl's attitude turned definitely jaunty. Then, as Macias passed her table, her rouged lips curved into a smile, her eyes half-closed as if with charming boredom. She intercepted him with a little laugh, a hand laid lightly against his arm.

Macias' automatic smile turned instantly to a dark scowl as he muttered something, jerked his head toward the door. Then, deliberately, he brushed her hand from his arm, stalked off.

Only when the thin figure had disappeared, did Devona realize she'd been holding her breath that the tragic little drama she had just witnessed had taken only a few moments to enact, and that—if she lived a century, she'd never forget the passionate despair etched deep into that stricken young-old face.

There—Devona realized with sudden, awful intuition—but for the grace of good luck and a few wits, might be herself! A mistake, a chance mistake, a tell-tale glance—her own security hung on so slim a thread.

Restlessly, and to get away from her own thoughts, Devona wandered toward the cocktail lounge, where a crowd was already gathering about the long bar.

It was too early to begin the Troubadour's serenading. It was too early to be needed as hostess or dancing partner. Still, she moved aimlessly through the room. Aimlessly, and yet as if drawn by some invisible thread, she crossed directly toward him—toward a tall, familiar figure standing alone near the end of the bar, drinking his old-fashioned with calm dispatch. Dale!

He saw her at almost the same instant. Their glances met, clung like high-voltage wires. Then he bowed—a curt, formal little gesture as definitely final as Macias' scowling shrug of a moment ago.

Furious at herself for having given him this chance to snub her, Devona returned his nod frostily, and left the room before the pandemonium that had broken loose inside her, showed in her own stricken face.

And later that night, alone in her room, she railed at herself stormily. Why did she let it hurt so? Why did she care? Why was she spineless enough to care for a man who, selfish, heartless, unscrupulous, merited only her scorn?

On impulse, she burrowed under the pile of handkerchiefs, found the newspaper photograph, tore it into a hundred jagged fragments. Raising her one window, she flung the white shower into the darkness.

(To Be Continued)

Of course, with no more Sunday driving, there would be no more Sunday drivers. They can, however, go back to changing seats in canoes.

The territory under direct supervision of the Royal Canadian Mount Police is as large as the whole of Europe.

WOUNDED FINN AIDED BY RUSSIANS

The Moscow caption on this photo radioed from the Soviet capital says Red army men are helping a wounded Finn in Bulo Balmekjken. This is the first photo from the Finnish sector to reach this continent from the Russian side of the line.

The Greatest Fisherman

Squadron Of The R.A.F. Found Him In North Africa

"London Calling" gives us this story: As far back as the oldest stomach in a desert squadron of the R.A.F. could remember, it had had nothing in the way of food that had not come out of a tin. But, close at hand, the blue Mediterranean lapped the sands of the North African coast. With a sudden flash of insight, one or two of the more astute minds grasped the fact that this blue water, Mussolini's very own Mare Nostrum, could solve the problem of gastronomic monotony.

They got the lines, made hooks, opened tins for bait and fished assiduously, with watering teeth, for hours on end. The fish snifted at the bait, sneezed, and swam off.

It was, therefore, somewhat tough on the fish that an R.A.F. V.R. Officer, a one-time Kenya gold miner, was working nearby, blasting the beaches out of the rock with H.E. "Fish," he said, "I'll get you some fish."

Next day he was seen walking down to the beach with a number of beer bottles in his hand and a posse of stout swimmers at his heel. The bottle contained H.E. and fuses. Shortly afterwards there was a dull rumble, the sea heaved slightly, the swimmers plunged in and returned with shoals of stunned fish in their arms.

There was fresh fish for everybody that night. The toast in the Mess was: "To the greatest fisherman the R.A.F. has ever known."

Because of a great medley of tongues, the artificial language Esperanto is much used in the Russian city of Odessa.

All Russia On Guard

People In Small Towns Are Helping To Fight Nazis

Millions of people, says a Russian communique, now guard factories, plants, mines, power stations and farms, collective and individual against German spies and diversions who might have landed by parachute or otherwise got behind the lines.

Several German planes flew by night near a small town and two shepherds saw German parachutists descending, the communique said. One of them hid himself to watch while the other mounted a horse and rode to the nearest army post. Army men wiped out the entire detachment. It was said.

A woman collective farmer, working in a field, saw an armed stranger come out of the woods nearby, the communique said. The stranger approached her and asked her about the roads to villages and towns around, and about state farms and cattle breeding stations.

The woman pretended to be deaf, the communique said. She forced the German to shout so loud in questioning her, and replied so lustily herself, that another woman farmer on the other side of a clump of bushes, was warned and ran to the village Soviet.

Collective farmers and members of the local "extermination squad" gathered and went to the farm. The German fled, the communique said, but he was disarmed and turned over to soldiers.

Courage Had Courage

Commander Of British Destroyer Awarded Bar To His D.S.C.

Commander Rafe Edward Courage, D.S.O., D.S.C., Commander of the destroyer Havock, has been awarded a bar to his D.S.C. "for courage and skill in a successful attack on an Italian submarine."

Commander Courage commanded the Havock at the first Battle of Narvik. After saving his ship he sailed for home and leave to find his young wife, Irene, had died suddenly.

Later Havock's commander signalled to Admiral Cunningham at the Battle of Matapan: "I am hanging on the stern of the Italian cruiser Pola. Shall I board her or blow her stern off with depth charges?" Overseas Daily Mail.

GEMS OF THOUGHT

MERIT

It is not what he has, nor even what he does, which directly expresses the worth of a man, but what he is—Amiel.

Man's chief merit consists in resisting the impulses of his nature—Samuel Johnson.

Good actions crown themselves with lasting rays; Who deserves well, needs not another's praise—Robert Heath.

Human merit or demerit will find its proper level. Divinity alone solves the problem of humanity, and that in God's own time. "By their fruits ye shall know them"—Mary Baker Eddy.

Life is continually weighing us in very sensitive scales, and telling every one of us precisely what his real weight is to the last grain of dust.—James Russell Lowell.

Merit is never so conspicuous as when coupled with an obscure origin, just as the moon never appears so lustrous as when it emerges from a cloud.—Bovee.

Report From South Africa

Shows Wonderful Work Done For Hospitals By Princess Alice

The memory of the work of Princess Alice, now of Rideau Hall, Ottawa, lives in the reports of hospital activities in this British Union of South Africa, where she resided from 1923 to 1931, when her husband, the Earl of Athlone, was Governor-General at Cape Town.

In an address recently on the hospital services of the Cape Peninsula, Capt. W. D. Here, M.P., chairman of the Cape Hospital Board, said wonderful work was being done by the Princess Alice Home, where accommodation for an extra eighty beds was being provided by the Nuffield Trust.

Busy And Hot

Old National geyser in Yellowstone National Park, which has been erupting on an average of every sixty-five and a half minutes for years, shoots from 10,000 to 12,000 gallons of scalding water about 150 feet at each eruption.

Nitroglycerine has an explosive force 13 times greater than that of commercial gunpowder. 2426

HOME SERVICE

BE UP IN YOUR ETIQUETTE TO MAKE A HIT ON DATES

Errors Hint You Go Out Seldom

She's trying so hard to make an impression! But, knowing little of the etiquette of dating, what an awkward situation she's created. It's the girl's place to suggest going home, on a date or at a party, and if you just sit, waiting for the man to say the word, of course you embarrass him.

Men feel more at ease with the girl whose smooth manners show she's used to going places—and they feel prouder of her!

So, if you'd get your share of invitations, be up in etiquette. Don't have to hesitate when going into a movie theatre, entering a room, getting out of a car—because you aren't sure who should go first.

At the movie you go ahead of your beau at the ticket-taker's entrance, you are first to enter or leave a room—but the man always steps out of a car first.

Show you're used to little courtesies, too. When given a compliment, don't titter "You're kidding," but reply with a smiling "Thank you." Let your escort hail taxicabs, help you with your wraps, open doors for you.

From our 32-page booklet learn the correct thing for games, dates, dances and movies; for visiting, entertaining, motoring, and travelling. Discusses the petting question, office manners introductions.

Send 15c in coins for your copy of "Etiquette For Young Moderns" from Home Service Dept., Winnipeg News-press Union, 175 McDermot Ave. E., Winnipeg, Man.

The following booklets are also available at 15c:

- 118—"Good Table Manners"
- 129—"The Meaning of Dreams"
- 146—"Home Course in New Ballroom Dances"
- 178—"Decorative and Useful Objects You Can Easily Make"
- 183—"Self-Instruction in Short-hand"
- 185—"Easy Lessons in Guitar Playing"

Record Wheat Order

Will Give Britain Year's Supply Of 9,500,000 Loaves Daily

The United Kingdom's Ministry of Food, largest buyer of wheat in the world, has broken its own record with an order for 120,000,000 bushels (about 3,000,000 tons) placed with the Canadian Wheat Board.

The previous largest purchase was of 100,000,000 bushels, ordered by the Ministry last year. The new consignments is to be delivered during the 12 months ending May, 1942.

Reckoning 563 1/2 lb loaves to the ton of wheat and using white flour of 75 per cent extraction, this will provide Britain with 3,378,000,000 of the 2-lb loaves her housewives favor. There will also be 750,000 tons of wheat-feed in the form of bran, middlings and wheat germ meal, for Britain's dairy cows, beef cattle, pigs and poultry.

If the wheat is converted into 85 per cent extraction national wheat-meal flour, 4,080,000,000 2-lb loaves would be produced but only 450,000 tons would be available for livestock feeding.

As Britain does not at present make more than ten loaves in every hundred from the higher extraction flour, a total of 3,448,200,000 loaves representing about 9,500,000 loaves a day for the 12 months is what Britain will obtain from this order.

Still Unvanquished

Czechs have been wrecking Nazi trains. Belgians have been staging demonstrations against the Germans. Norwegians have been so determined, Nazi police have had to be called to quiet them. Yugoslavs are causing damage to German plans. These are just a few reports from Europe to show there are still some unvanquished hearts over there.

Need Nurses In Britain

A shortage of nurses in Britain is feared because of a lack of sister tutors who have charge of their training. However, steps are being taken to encourage more women to become teachers of nursing.

Local News

Miss A. Yuill returned home on
Tuesday after a summer vacation
spent at Calgary and other Alber-
ta points.

Mrs. Lewis Brown and family
have returned to Coleman. They
have been residing at Vancouver
for several months.

Mr. and Mrs. Ray Dunlop and
Mr. Isaac Dixon, of Calgary, spent
the weekend the guests of Mr. and
Mrs. Hugh Dunlop.

Captain Ed. Donkin and son,
Bobby, of Frank, and W. L. Tay-
lor, of Coleman, motored to Water-
ton Park on Sunday.

FOR SALE—6-room house with
bathroom and furnace. Located on
Second Street. Apply to Mrs.
Jack Derbyshire, Third Street.

James Ewing was host to a num-
ber of young friends on the occa-
sion of his tenth birthday on Mon-
day. The guests were royally en-
tertained.

Wm. Antrobus, who has been
spending a vacation with his par-
ents here for a few weeks, left on
Tuesday morning for Fort Erie,
where he is employed.

Born: To Mr. and Mrs. George
Dyer, (nee Margaret Bell), of
Sheep Creek, B.C., at Kootenay
Lake General hospital, Nelson,
August 12, a daughter.

Mrs. Mollie Turner and children,
accompanied by Miss Muriel Naylor,
returned to their home at
Sheep Creek on Sunday morning.
Miss Naylor will vacation there for
one week.

Mrs. D. Davies and daughters,
Doris and Megan, and Mr. Jack
Campbell left today for their
homes at Edmonton after several
weeks' visit the guests of Mr. and
Mrs. F. Cox.

Miss Joan McQuarrie, nurse-in-
training at the Vancouver General
hospital, returned home on Wed-
nesday morning for a month's va-
cation with her parents, Mr. and
Mrs. C. McQuarrie.

Rev. D. K. Allen was a Vancou-
ver visitor and returned home to
Tofield almost two weeks ago. He
was involved in the recent railway
accident near the coast and suffer-
ed minor back injuries.

Several Coleman people antici-
pate motoring to Calgary on Labor
Day to witness the big 100-mile
Tin Lizzie Derby which is being
sponsored by the Calgary Lions
club. First prize is worth \$250.00.

Turtle Mountain Playground will
sponsor three big nights of dancing
this week-end. Edles' band, All Can-
adian band and Arcadians' band have
been engaged to play. Spot and nov-
elty dances as well as streamers, con-
fetti and balloons will be enjoyed.
Large crowds are expected.

"The Family Clothier"
Main Street - Coleman

Miss Margaret Allan returned
home on Tuesday from a vacation
spent at Vancouver. She will leave
shortly for Edmonton, where she
will take over her new duties on
the staff of the University of Alber-
ta.

Bob Emmerson, stationed at St.
Thomas, won a silver cup at a
track and field meet. He won first
place in the hop-step-and-jump
event. He is now trying for a berth
on the team which will compete at
the Toronto Exhibition.

Miss Gladys Lees returned at the
weekend from a two weeks' vaca-
tion spent at Vancouver. While in
the city she met Mr. and Mrs. R.
Hubbert, Mrs. Fred Stokes, and
Mrs. T. W. Davies, the latter a
former Coleman resident and sis-
ter of Mr. O. Smith.

The many friends of Mr. O. E. S.
Whiteside will be pleased to know
that he is considerably improved in
health after a lengthy illness. He
can now be seen any fine morn-
ing playing golf in Vancouver's
Stanley Park. Mrs. Whiteside is
also much improved in health.

The men who venture are busi-
ness builders—creators of business.

Mr. and Mrs. N. Nicholas, and
the Misses Lottie and Annie Nich-
olas returned home on Tuesday

evening from a three weeks' va-
cation spent at Seattle and Van-
couver.
